Why are we here

- Your road is **in poor condition** and requires the Town to act for the safety of the travelling public.

- We are **here to listen**. I’m here as part of the team to facilitate that.

- The Town wants to **know specifics about your road** that may not be apparent to us.

- We **will seek funding** to fix your road and **request your support** to obtain that funding.
The Benesch Team

PROGRAM MANAGER
William Walter, PE

PROJECT MANAGER
Ryan Scrittorale, PE

ROADWAY DESIGN TEAM
John Oliveto, EIT
Please take the time to fill out the questionnaire.

Your comments and concerns help us implement the best design.
Existing Conditions

- Total Length of the Roadway: ± 10,033’
- Current curb to curb width: ± 20’ - 30’
- Posted Speed limit: 25 MPH
- PCI (Pavement Condition Index) Rating: 40-63
Preliminary Engineering Report

- ADT (Average Daily Traffic), 85th Percentile Speed
- Accident Reports
- Horizontal Alignment & Vertical Alignment
- Stopping Sight/Headlight Sight Distance
- Drainage
- MPT (Maintenance and Protection of Traffic)
- ROW (Right-of-way)
- Permits – Anticipated Permits
**ADT**, 85th Percentile Speed

**ADT**
- N. of Dodd Rd
  - 1,632 vehicles
- S. of Dodd Rd
  - 2,312 vehicles

**Design Speed**
- 25 MPH
  - N. of Dodd Rd
    - NB – 38.7 MPH
    - SB – 38.5 MPH
  - S. of Dodd Rd
    - NB – 39.7 MPH
    - SB – 39.1 MPH

Town of New Milford
Customer Service Requests (Town-wide)
### Design Criteria – Local Urban Street

**Design Speed 30 MPH**

- **Lane Widths**: 10-11’
- **Shoulder Width**: 2-4’
- **Maximum Grade**: 13%
- **Minimum Stopping Sight Distance**: 200’
- **Maximum Super Elevation**: 4%
- **Minimum Radius**: 230’
- **Clear Zone**: 10’
Drainage Issues
Maintenance & Protection of Traffic

- One Way Alternating Traffic
- Detours – Not an option
Rights of Way

- Identify Early Any Rights Of Way Impacts to Stakeholders
- Bring To Attention Of Town And Stakeholders
- Minimize Impacts To Stakeholders
  - Short Term & Long Term
Permits

- Anticipated Permits
  - Local Traffic Authority - Signage
Possible Recommendations for Pavement Structure

RECLAIM RECONSTRUCTION

## Project Schedule

- **Preliminary Engineering Report**
  - March 6\textsuperscript{th}
- **Preliminary Design (50%)**
  - March 15\textsuperscript{th}
- **Final Design (90%)**
  - April 12\textsuperscript{th}
- **Bidding**
  - April/May
- **Start of Construction**
  - Spring/Summer 2019
- **Duration of Construction**
  - Anticipated 6-7 months
