

CONCLUSION

8

This POCD is intended to guide the Town and aid in land use decisions over the next 10 years. The POCD is intended to be flexible. Sometimes new situations emerge that were not anticipated while preparing the POCD, new opportunities may arise, or new challenges are faced. As needed, the Town can update and amend this POCD to better position itself to respond to changes.

This POCD will enhance quality of life, preserve important natural and cultural resources, provide housing opportunities and business development opportunities, and ensure that New Milford residents and workers have transportation options, among other goals. Achieving these and other goals will ensure that New Milford remains a desirable community in which to live, work, and visit.

Town Green.
