NEW MILFORD FIT Food Insecurity Team

A supportive team of food responders
collaboratively working together to
meet the nutritional needs of residents
challenged by food insecurity.

Food Insecurity means struggling to
afford quality food to support a healthy
life for every member of a household.

1 in 10 CT families struggle with food
insecurity due to socio-economic
factors.

Our members work towards reducing
barriers and increasing access to
nourishing food options to improve
one's well-being.
