

Frontier[®] FiberOptic.

Bringing Fiber to more communities.

Frontier Communications

Town of New Milford

March 16, 2022

Haven't you heard?

Frontier® FiberOptic
is here!

Frontier Fiber Optic Project- New Milford

- ✓ Upgrades through fiber-to-the-premises expansion
- ✓ 2022 build will serve approx. 9,800 SFUs/SBUs
- ✓ Fiber can provide additional future services
- ✓ Frontier® FiberOptic / 500 Mbps up to 2.0 Gigabit service
- ✓ Majority of work to be performed will be on existing overhead lines and existing underground substructures

How does Broadband Impact Communities?

The fiber network is 100% fiber from our central office to a customer's location

Households can easily connect to multiple devices at one time

Fiber broadband increases rental & property value *

High-speed internet: Frontier® FiberOptic offers speeds up to Gigabit service

Revitalizing rural communities

Entrepreneurs have the speed they need for business development

Students can learn anywhere & compete on a level playing field

New markets for operators: enable them to offer new services

** A Fiber Broadband Association study shows home values increase with access to fiber*

Why Frontier FiberOptic Targeted Expansion Makes Sense

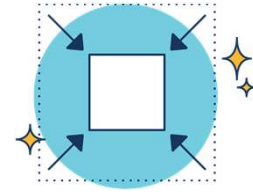

Super Fast Speeds

Better Reliability
(Voice, Data, IPTV)

No Bottle-Necking

Smaller & Discreet
Equipment

Better Network
Elements to Support Future
Growth

Less Chance for Degradation

Less Expensive &
More Cost-Effective
to Deploy

Doesn't Experience
Interference
